Harrison Spinks

The True Bedmakers

THE BED TAILOR TURN FREE COLLECTION

So confident are we about the performance of our springs that we are able to make a mattress that doesn't need turning. Sumptuous natural fillings are carefully layered above our innovative spring systems to provide targeted support close to the single sleeping surface and deeper support at the mattress core.

Offering all the luxurious comfort and support you'd expect from a Harrison Spinks mattress without the need to turn it with the seasons.

Layers of luxuriously natural and sustainable fillings work in harmony with our world leading innovative spring systems to provide excellent comfort and lumbar support and your best night's sleep.

Headboard: Florence Floating **Base:** Slim True Edge Base **Fabric:** Rustika Pale Grey

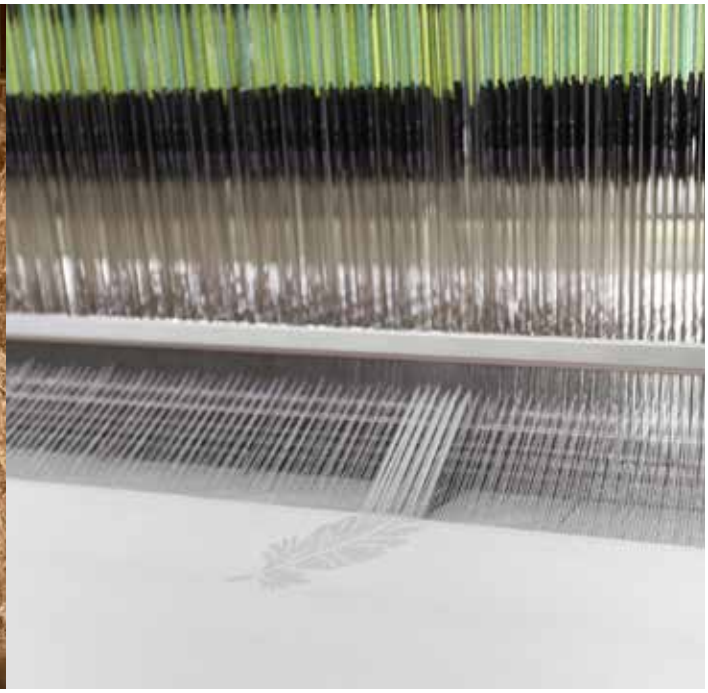
Handcrafting luxury



THE MOST INNOVATIVE SUPPORT TECHNOLOGY YOU'LL FIND ANYWHERE IN THE WORLD

Ground breaking, 100% recyclable and glue free, our Cortec™ pocket springs offer greater contour accuracy. With the first three models featuring our latest innovation; Cortec™ Quad springs, while the top three models feature our premier, award-winning Cortec™ Ultra springs.

These core springs work in harmony with multiple layers of our highly flexible HD Micro springs to relieve pressure and our Microlution Airflow springs to keep your spine in alignment.

Each spring system tailors itself to your unique shape, enabling you to always maintain the best posture.

HOME-GROWN LUXURY

We pride ourselves on the ingredients we use in our mattresses, we believe they should be sustainably sourced. This is why we grow hemp and flax and rear sheep on our farm, sourcing more exotic fibres carefully to ensure their quality, eliminating the use of foam for more sustainable options.

It's the perfect recipe for a truly indulgent night's sleep.

BRINGING WEAVING BACK TO YORKSHIRE

In line with our ethos to be world leaders in sustainable comfort innovation, we weave our own chemical free mattress fabric in-house; combining traditional methods with state-of-the-art weaving looms, creating a breathable and FR chemical free sleeping surface. An innovative but natural finish to the perfect night's sleep.

We are committed to an FR chemical free, foam free and glue free future.
